

DISCLOSURE OF RELEVANT FINANCIAL RELATIONSHIPS

In accordance with the Accreditation Council for Continuing Medical Education's Standards for Commercial Support, all course director(s), presenters, moderators, planners, and peer reviewers involved in the development of CME content are required to disclose to the accredited provider any relevant financial relationships of themselves and their spouse/partner via a Disclosure of Relevant Financial Relationships form.

The ACCME defines "relevant financial relationships" as financial relationships in any amount occurring within the past 12 months that create a conflict of interest. Conflicts of interest must be resolved for the individual to continue participation. All participants declare the following:

- They will comply with the ACCME Standards for Commercial Support of Continuing Medical Education to ensure that this CME activity is free of commercial bias or appearance thereof.
- They will base all clinical recommendations on evidence that is accepted within the profession of medicine as adequate justification in the case of patients.
- They will ensure that all scientific research referred to in support of a patient care recommendation will conform to generally accepted standards of experimental design, data collection, and analysis.
- They will not discuss any unlabeled uses of products.

Failure to return the Disclosure of Relevant Financial Relationships form prior to the beginning of the CME activity results in disqualification from participation in any development or presentation.
